

Most popular design choice

ASHLEE Jones Homes is proud to showcase its new display home. The Madisyn 271 Design has everything you could want in your new home. Competitively priced to build, clients are surprised at how much is included in the standard inclusions. Ashlee Jones Homes only use quality fittings and accessories on all new homes and this is your opportunity to take a look.

This design has become the most popular, with houses built throughout Cairns and down to Mission Beach. Head to Gordonvale this weekend and see why everyone wants the Madisyn Design.

The Madisyn 271 is a four-bedroom home with generous-size bedrooms. The master includes a walk-in robe and ensuite, which has a double shower and double basins. It also opens up on to the large entertaining area.

The main bathroom has a separate shower and bathtub while the laundry includes plenty of bench space. With two living areas, this design gives the flexibility to set the second living space up as an actual media room, which is what has been done with this display.

The lounge meets the central chef's kitchen, which consists of a 900mm freestanding cooker along with a water point for your fridge. From the dining room, the large entertaining area creates seamless indoor/outdoor living.

The Madisyn 271, like all Ashlee Jones homes, comes with tiles, security screens and airconditioning throughout. The staff have taken the time to ensure everything is included in your new home, right down

to the letterbox and clothes line.

All that is left to do is move in.

"Quality built with pride" is the builder's mission statement and their staff strive to deliver this when clients build their dream home with the team.

Ashlee Jones Homes is a Cairns building service that was established in 2008. It is a family business that focuses on developing good client relationships and quality workmanship.

With more than 15 years' local industry experience, the team at Ashlee Jones Homes works from start to finish with clients to create their dream home. Every Ashlee Jones Designer Home is built by highly skilled tradesmen and the team firmly believes in total commitment, hard work and integrity.

The builder offers a variety of services including new home construction and free quotes to the Cairns and Far North Queensland region, south to Tully.

When the team meets with you to customise a new home, you can either choose from a diverse range of plans which can be tailored and amended to suit individual needs or from one of the builder's own designs. The team works hard to ensure clients' expectations are exceeded and they are always on hand to answer questions.

Ashlee and his team will be on site at Devine Cres, Gordonvale, today and tomorrow from 10am-4pm. Follow the signs from the highway.

For information outside these hours phone 4056 3089 or email info@ashleejoneshomes.com.au.
